

## OY-L Q & A

**Q: What are the key ingredients used in OY-L products?**

A: We use an array of natural ingredients but some that stand out are rosehip oil, hemp seed oil, medical-grade Manuka Honey 20+, frankincense essential oil, pink Himalayan salt and lavender essential oil.

**Q: Do OY-L products have any chemicals or preservatives in them?**

A: No, OY-L products are toxic and preservative free. They contain *none* of the following ingredients: phthalates, parabens, DEA/TEA/MEA, color pigments, formaldehyde, preservatives, isopropyl alcohol, mineral oil, PEGs, propylene glycols, sodium lauryl sulfate, triclosan, talc or petrolatum. OY-L products are not tested on animals.

**Q: Are OY-L products tested on animals?**

A: There is no animal testing in the making of OY-L products.

**Q: What was the genesis behind OY-L?**

A: Founder Andrea Pierce-Naymon began researching the ingredients of beauty and personal care products after her daughter became sick with what was initially a mystery illness and later diagnosed as Postural Orthostatic Tachycardia Syndrome (POTS). In her research, she discovered the widespread use of toxic chemicals and preservatives in everyday products and wanted to create her own natural and chemical-free versions for herself, daughter and anyone else looking for an all-natural yet high-end skin care alternative.

**Q: What types of natural ingredients are used in the products?**

A: The entire line of OY-L skin care products are all-natural and made of only plant-derived ingredients. The entire line (except the Hydrating Facial Mist) uses hemp seed oil instead of water - meaning it's non-comedogenic so it won't clog pores and is rich in omega 3-6 fatty acids, and is known for its antioxidant and anti-inflammatory properties. The bath salts contain all-natural pink Himalaya salt which boasts 84 trace minerals. For a full list of every ingredient used please visit this link: <https://oy-l.com/about/ingredients/>

**Q: What types of benefits do [some of] the above mentioned ingredients provide?**

A: **Rosehip oil** offers several skin benefits as it consists of anti-aging and anti-inflammatory properties that help reduce fine lines, wrinkles and improve skin texture. **Hemp seed oil** is non-comedogenic - containing anti-oxidant and anti-inflammatory properties as well as increases skin elasticity and water retention to diminish the appearance of wrinkles. **Medical-Grade Manuka Honey 20+**, which only comes from New Zealand, has anti-bacterial and anti-inflammatory agents that help reduce pain and inflammation as well as stimulate the production of cells that can repair damage caused by infection. **Frankincense essential oil** is a powerful astringent that can help reduce acne and large pores as well as prevent wrinkles. **Pink Himalayan salt** contains 84 trace minerals and electrolytes that are needed by our bodies and can work as a detoxifier when applied to the skin as well as dissolved in water.

**Q: What types of products does the OY-L product line consist of?**

A: Presently, the line is comprised of body butter, body scrub, bath salts, a manuka honey face wash, a hydrating facial mist, an exfoliating manuka honey mask and a face cream.

**Q: How many different scents do the products come in?**

A: We have four all-natural essential oil scents in the OY-L product line: pink grapefruit, lavender, litsea basil and tiare lime. We also have an unscented body butter.

**Q: Where can I purchase OY-L products?**

A: You can purchase the products on the OY-L website: [www.oy-l.com](http://www.oy-l.com).
