

OY-L

Founded by Andrea Pierce-Naymon, OY-L delivers a promise of "beauty without secrets." Though her marketing targets women, we were intrigued by the transparency of her formulas and decided to test a few products on a man's skin with solid results. After a hard workout, the body scrub is great to exfoliate and rejuvenate the skin. Starting with pink Himalayan salt as a base, the addition of jojoba oil, hemp seed butter and other ingredients will leave you smooth as a baby's bottom. Post-shower, give your face a treat with the hydrating facial mist.
